The IEEE IV 2023, Anchorage, Alaska is pleased to announce journal paper presentations opportunities for recent and in-press IEEE journal papers within the ITS and IV scope. Journals being considered include IEEE Transactions on Intelligent Transportation Systems (T-ITS), IEEE Transactions on Intelligent Vehicles (T-IV), IEEE Transactions on Vehicular Technology, IEEE Transactions on Information Forensics and Security, IEEE Transactions on Signal Processing, IEEE Journal on Selected Topics in Signal Processing, and IEEE Signal Processing Magazine.

Eligible journal papers must be published in 2020, 2021 and 2022 or have been formally accepted by April 30, 2023, and pending publication. Please note that **we would like to reserve the right to grant or decline any requests at our sole discretion**. Priorities may be given to recent journal papers that add value to the IEEE IV technical program and yet have not been presented at IEEE ITSS conferences or broadly known to the IEEE IV attendees.

Approved requests for presentation must have one author/presenter register for the conference according to the IEEE IV 2023 registration instructions. Each journal paper presentation is counted as one paper/presentation in the author's non-student registration.

**To submit a presentation request, you must provide the following information about the paper(s):**

1. Title
2. Abstract
3. Complete Author List
4. Journal Volume, Issue and Page Numbers (if available)
5. DOI Number or URL to IEEE Xplore page (if available)

Please submit requests to <https://edas.info/N30459>.
